Dietatec Oy operating policy

Dietatec Oy manufactures the world's best high-quality mixer kettles to enable responsible and effective food production without making any compromises over the quality of food. We are known for our high-quality products that we work hard to provide. Dietatec's management and personnel always work by our values – customer first, brave forerunner, and best approach.

1. Customer satisfaction is the cornerstone of our responsibility, sustainability and quality development and measures aiming for continuous improvement.
2. Quality, sustainability and responsible actions cannot be produced without the input of our highly skilled personnel. Whose well-being, expertise, and occupational safety we commit to maintaining through training and focusing on continuity. Listening to everyone and working together is the key to maintaining responsible, sustainable, and high-quality operations.
3. We address the requirements and wishes of our customers and stakeholders, as well as the environment. We keep our stakeholders informed of our company policy and work with them to achieve even better results. We keep the promises we make and expect others to do so as well.
4. To us, quality, responsibility, and sustainability are comprehensive and all-encompassing.
5. We monitor and measure the responsibility, sustainability, and quality of our activities. We commit to developing our activities continuously and reducing our environmental loads.
6. We comply with the legislation, official requirements and Dietatec's values in everything we do.

Our operating promise is to produce, maintain and develop Dietatec's high-quality products now and in the future. Success in this requires the commitment of everyone – managers and the personnel alike.
